

Pinto Energy Partners announces a non-binding open season for natural gas storage on their Fee acreage at Stratton Ridge Dome in Brazoria County, Texas. Pinto is soliciting interest via non-binding bids for storage capacity at a Greenfield cavern storage facility anticipated to offer service in Q2 2030. The facility could provide storage service for shippers utilizing the FreeportLNG Header, as well as the Enbridge BIG pipeline, the Boardwalk Coastal Bend Pipeline, KM Tejas Pipeline and Targa pipeline all located immediately east of Clute, TX at or near the terminus of the FreeportLNG Header.

The open season will run from November 2 until COB Novemger 25, 2026. Please contact Geoff Pike at GRP@Cockrell.com or Ken Beckman at Beckman.KLB@gmail.com for more information.

Bid documents can be found at www.pintoenergy storage.com.

Pinto Stratton Ridge Natural Gas Storage Open Season Bid Form

Please submit before 5 pm, November 25, 2026

Pinto currently has a TRRC permit to construct caverns for gas storage on the property under intrastate regulation with a FERC 311 filing based on customer interest. A draft Statement of Operating Conditions, typical of similar services offered in the Texas Intrastate market, can be found on the Pinto web site. The SOC is open to modification to reflect specific requirements of successful bidders for capacity within the rules and regulations of the State of Texas and customary terms of the natural gas storage industry.

Please provide the following information:
